

Shotgun Wedding

Short Stack

This ain't a shotgun wedding
But you're my getaway car
And I'm done pretending
I'd rather be wherever you are

So come a little bit closer
And kill me under the stars
I wish I never did know you
I wish I broke your heart

So drop dead
Get out of my head
Get out of my head
I don't miss you baby
She said
I'm better off dead
So paint the walls red
This is escalating
Catch myself before I call you lover
Hold your breath 'cause we're going under
Drop dead
Get out of my head
Get out of my head
I don't miss you baby

This ain't a shotgun wedding
More like a funeral love
And we know the ending
Déjà vu in the back of my car

So come a little bit closer
And kill me under the stars
I wish I never did know you
I wish I broke your heart

So drop dead
Get out of my head
Get out of my head
I don't miss you baby
She said
I'm better off dead
So paint the walls red
This is escalating
Catch myself before I call you lover
Hold your breath 'cause we're going under
Drop dead
Get out of my head
Get out of my head
I don't miss you baby

Don't leave me, I'm sorry
Sounds like the same old story
Don't leave me, I'm sorry
Sounds like the same old story

Called me up last night when she was wasted
Said I wish I missed the way you tasted

Called me up last night when she was wasted
Said I wish I missed the way you tasted

So drop dead
Get out of my head
Get out of my head
I don't miss you baby
She said
I'm better off dead
So paint the walls red
This is escalating
Catch myself before I call you lover
Hold your breath 'cause we're going under
Drop dead
Get out of my head
Get out of my head
I don't miss you baby

Don't leave me, I'm sorry
Sounds like-
(I don't miss you baby)
Don't leave me, I'm sorry (Called me up last night when she was wasted)
Sounds like-
(I don't miss you baby)
