Sunshine

Short Stack

2 am
Turn me up
I'm not going home
The world outside's so dark and cold
But you're my sunshine
You're my sunshine

Breathe you in
Taste your sin
Wouldn't change a thing
Think I'm better off dead
But then there's you
You're my sunshine

And I'm not leaving

So don't speak
Every time you smile, and you kill me
Darling I'm a thunderstorm
So don't speak
Every time you smile, and you kill me
Darling I'm a thunderstorm and you

I'm coming clean
Seventeen
Take my everything
All I want is to die alone with you

I'm not a saint and there's no heaven
But if there was, they'd envy us here tonight

And you're a supernova
The stars are all set for you
I'll keep on dancing with your phantom if you want me to

Said our loves our car crash
But you know I love that
Funny that our scars match
Never get your heart back

So don't speak
Every time you smile, and you kill me
Darling I'm a thunderstorm
So don't speak
Every time you smile, and you kill me
Darling I'm a thunderstorm and you
Are my sunshine
Darling I'm a thunderstorm and you
Are my sunshine
Darling I'm a thunderstorm

So don't speak
Every time you smile, and you kill me
Darling I'm a thunderstorm

So break me
Rip my heart to pieces

Then you save me

Darling I'm a thunderstorm and you
Are my sunshine
Darling I'm a thunderstorm and you
Are my sunshine
Darling I'm a thunderstorm

So don't speak
Every time you smile, and you kill me
Darling I'm a thunderstorm
