Valkyrie

Short Stack

It's 3am
Morning after Christmas
As your eyes light up like fireworks
I had no idea I'd miss this like I do

And you're ever optimistic
As I swim between the sheets
Your sweet heart beats a love electric

Tiny dance you're the answer
You're the drug I just can't quit
So I might give you all I have to give

And it's all I ever wanted
And it's all I'll ever need
And you saved me from the monsters in my head
And I believe, I believe
Valkyrie
The monster here is me

So let's pretend
We're back in last December
Where we stayed up till the sun rose
Saying no more second chances

And you smiled
The sweetest thing I'd seen
Since you kissed me like the first time
Light me up like gasoline

I'm a liar I am fire, I'm in love with all your sin
So I might give you all I have to give

And it's all I ever wanted
And it's all I'll ever need
And you saved me from the monsters in my head
And I believe, I believe
Valkyrie
The monster here is me

And it's all I ever wanted
And it's all I'll ever need
And you saved me from the monsters in my head
And I believe, I believe
Valkyrie
The monster here is me
