

# Love Song From A Dog

Shovels & Rope

I was born  
In a meadow by a stream  
Original and clean  
No one there  
But my mother and my team  
Running in my dream  
Fastest you ever seen

When I met you  
It was just like being born  
There was no past to mourn  
I lay around in this necklace I adorn  
Never worried 'bout a storm  
Every night I'm warm

One word and I'm running  
One word and I'm

Running like a colorblind lovesick fool  
Running like I'll die if I don't get to you  
Running like I've got more legs than two  
Running like it's something I was born to do

I lay down dead every time you leave  
I can barely breathe  
I lock my eyes on the clearing in the trees  
Till you return to me

One word and I'm running  
One word and I'm

Running like a colorblind lovesick fool  
Running like I'll die if I don't get to you  
Running like I've got more legs than two  
Running like it's something that I just have to do  
Running like I only got a little more light  
Running like your love is gonna save my life  
Running like I think I'm gonna run all night  
Running running  
Running running running running running
