Show Me The Body

Tech external bet I know
Blue inferno get cold
Like the grey coats remind me of big boats
52 shoulder choke quota load
Earth stage humans breed for the war play
Binary waste its it or them
They'll keep you for a couple days
Stuck with the water when ya need the blood
Moms can't stand ya face so ya best call the cause

Looking at the pigs through the window
Cute
The cities cold they left us all out in the snow
I try to evict these souls ceremonial
Pigs blood head to toe

Pain when you begin again
When they get called in for questioning
Meet me in Marcus midnight for the covenant
Killing a pig for the cuffing in
Turn up the heat on the pork when its simmering
Stuck in the dark in New York I'm remembering slugs
They already sweltered them up
Hit floor boards when they enter in
Staring at the back of a bumper 1-800 cop shot
I see the full jacket metal future
Metal future me please
I see the full jacket metal future
Metal sector defector blue users blue abusers
No choosers just looser luck
Can't you see I'm real stuck

Looking at the pigs through the window
Cute
The cities cold they left us all out in the snow
I try to evict these souls ceremonial
Pigs blood head to toe
