### Show Me The Body

Fist up, toes down  
War declared, pass it all around  
What's better when we come together?  
What's better and what's better?

Fighting, fucking, dancing together  
Fighting, fucking, dancing together

No trust, not my demeanor  
I've seen that kind take it all before  
And life's hard, don't wanna be here  
I want to feel what I've never felt before  
I want to feel what I've never felt before  
I want to feel it, I've got to feel it  
I want to feel what I've never felt before

No trust, I don't know you  
Fucked up from what I've seen before  
Fucking in fighting, come to nothing  
Family all I have to protect  
My friends and my brothers  
Nothing is pure, blood and water the same  
Fucking and fighting, come to nothing  
It's nothing that we have to claim

Fighting, fucking, dancing together  
Fighting, fucking, dancing together

No trust, not my demeanor  
I've seen that kind take it all before  
And life's hard, don't wanna be here  
I want to feel what I've never felt before  
What you got? Don't want to see it  
Wanna feel what now I have to claim  
Life's hard, don't wanna be here  
I want to feel what I've never felt before  
I want to feel what I've never felt before  
I want to feel what I've never felt before  
I want to feel what I've never felt before, yeah
