

Ghost In The Room

Show Me The Body

Bring the ghost in the room
Bring the ghost in the room
Bring the ghost in the room
Bring the ghost in the room

Time will cut you sideways
Ear to ear to ear
So I take it year by year
Time cut you sideways
Ear to ear
So I take it year by year
I try to broker a deal
But time takes
The base is stolen anyway
Bend or break
Pistol fire or a swing mace
Deadly like livin' by the fire place
Body humiliated
It was a sunny day and he was just on his way
Distrust will put you in a bitter place
Family side eye
Who's names on the dinner plate
You make a face I can't read
I can't relate
You make a face I can't read
I can't relate
Tears, to fill the empty space

All the fear
That rise up and I can't sleep
Enjoy this life, it'll be over soon

With a ghost in the room
I see you full of regret
Wishing you didn't hold no debts
Every choice gotta be the last
Hold me close, now make it last
Play time
When I live in the past
Wake up
Life has passed
Deep red night these memories
And the light don't sleep
It just waits for me

Bring the ghost in the room
Bring the ghost in the room
Bring the ghost in the room
Bring the ghost in the room
