

Surround

Show Me The Body

Say it now, I'll see you 'round
Everything I love is gone
I see you pressed, say it with your chest
Don't gotta think once I'm down
Don't sit right with me, gonna be seeing me
In your dreams or on your street
Got you locked up, pod in pea
Don't even gotta think once I'm down
Don't even gotta think once I'm down

Don't cut this cord
I am breathing for you
Don't buy this house
I am living inside you now
Don't cut this cord
I am breathing for you
Don't buy this house
I am living inside you now
Ah-ah-ah-ah-ah-ah-ah-ah

I can turn your dreams into dust
Tell me I'm the one
Everything you want, what you love
I can be the one
I can be your love
Life is misery and then you're dust
Let me be the one
Let me bring you up, yeah
Violence always bleeds into lust
Looks like you've had enough
You look like you need to have some fun
Neighborhood vice, come around once a month
Pay the best price, oh, I can make you numb
Make you feel nice, yeah, make you feel something
If only one thing, it's not for nothing
Listen to the voices, I'm outside your door
Fear is only poison, I can be the cure
Fear is only poison, I can be the cure
Fear is only poison, I can be the cure
Ooh

Just let them surround
Let them surround
Let them come back
Demons about, demons about
Blood bursting from the ground
Prayer of hurt, prayer of birth
Life killer of night, killer of night
Sight aimed on enemies as they surround
Just let them surround, let them surround
Let them surround
Demons about, demons about
Demons about
Let them surround, let them surround
Demons about, demons about
Let them surround, let them surround
Demons about, demons about

Ooh, ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh, ooh
