

Sometimes words knock like they teeth  
Tiny bits of shrapnel bits for me  
Chunks, stuck in my knuckles  
Had to build calluses hands, don't buckle  
In the living room Pierre painted them in New York  
All of my people coming through your back door  
Taking your place, your whole life and space  
All around the orifice, corpus

Speak a certain way when you speak to me  
Use certain words, you can get it for free  
If you got shit to say use the tongue with ease  
Straight to rock bottom, gottem

Don't care how they're spinning it  
WW4 outside, they giving it  
Seeing heads up against sediment  
Keep your mouth closed, that's none of your business

Looking at the past, I'm teething it  
Sucking on time, little baby keep teething it  
See heads up against sediment  
Keep your mouth closed, that's none of your business

Youth outside, they getting it  
Got shit to give so they out there spreading it  
Hard to stay alive in America  
Living it legally, hardly any benefit  
Bless those outside getting it  
But bless those inside doing bids, gotta bless them  
Bless all people who never gave them shit  
Keeping it closed about the business

Speak a certain way when you speak to me  
Use certain words, you can get it for free  
If you got shit to say use the tongue with ease  
Straight to rock bottom, makes it easier to spot em

Speak a certain way when you speak to me  
Use certain words, you can get it for free  
If you got shit to say use the tongue with ease  
Straight to rock bottom, gottem

Don't care how they spinning it

Seeing heads up against sediment  
Keep your mouth closed, that's none of your business

Looking at the past, I'm teething it  
Sucking on time, little baby keep bleeding it  
See heads up against sediment  
Keep your mouth closed, that's none of your business
