Only Love

Showaddywaddy

Only love can make you high
Tall as the sky
When you're in love.
And only love can make you strong
Can't do no wrong
When you're in love.

Only love can make you proud You shout out loud How good it feels

Only can make you strong Can't do no wrong When you're in love.

Only love, can make you do Those foolish things I did for you

Only love will break your heart But that's all part Of this thing called love.
