

## The Party

Showaddywaddy

OK let's go - one, two, one two three four!

Here we go again, just a bit of rock 'n' roll  
Don't try to fight it, just let it ease your soul  
I'm just a simple man, doing the best I can  
Well I can, whoa man  
Won't try to tease you, just try to please you  
Don't wanna know your mind

Lead guitar like you never played before  
Let me take you by the hand, let me show you what we got in store  
It's just a simple tool [?]  
Well you can, whoa man  
Won't try to tease you, just try to please you  
Don't wanna know your mind

Two-forty five and we gotta keep it up till four  
Dancin' in the garden, laying all around the floor  
The room won't hold no more, we gonna have fun galore  
Whoa man, and we can  
Won't try to tease you, just try to please you  
Don't wanna know your mind  
Don't wanna know your mind  
Don't wanna know your mind
