I can feel in your love
We go together, yeah, you lift me up
Straight up, you got me falling, don't you let it stop
I want to lose hours in your arms, so just hold me
All I want is you
We don't hear the noise from the world on the outside

All I want is you, you, you, you, you
All I want is you, you, you, you, you

Heart gets beating when I think about you
Some kind of magic in the things you do
Day and night got me thinking about you
Heart gets beating when I think about you
Some kind of magic in the things you do

You could be the, be the, be the, be the one I said you
You could be the one
You could be the one
You could be the, be the, be the one
You could be the one

I can feel in your love
We go together, yeah, you lift me up
Straight up, you got me falling, don't you let it stop

I want to lose hours in your arms, so just hold me
All I want is you
We don't hear the noise from the world on the outside

All I want is you, you, you, you, you
All I want is you, you, you, you, you

Heart gets beating when I think about you
Some kind of magic in the things you do
Day and night got me thinking about you
Heart gets beating when I think about you
Some kind of magic in the things you do

You could be the, be the, be the, be the one I said you
You could be the one
You could be the one
You could be the, be the, be the one
