

## Colours

Showtek

Look at the colours in the night  
Look at the colours shining bright  
Oh it feels like they'll never fade  
When I'm with you

And we know  
That it's only in our minds  
But it's real to you and I  
All the colours never fade  
When I'm with you  
When I'm with you

When I'm with you  
All the colours never fade  
When I'm with you  
When I'm with you

All the colours never fade  
When I'm with you  
When I'm with you

And we know  
That it's only in our minds  
But it's real to you and I  
All the colours never fade  
When I'm with you  
When I'm with you

Look at the colours in the night  
Look at the colours shining bright  
Oh it feels like they'll never fade  
When I'm with you

All the colours never fade  
When I'm with you  
When I'm with you
