

EDM Sucks

Showtek

Hi, my name is Siri
I am a humanized artificial intelligence
Tonight I will be taking over as your DJ
Let's take it back to 2014, where sit-
downs and PLURR were still a thing

All we need is a cheesy sing-a-long gimmick and a super generic
predictable half-time drop that every DJ wants to play
Are you f*cking ready?

Roses are red, violets are blue
EDM sucks, and so do you, bitch

I know that all you human party mother f*ckers want to hear a s
econd and easy anticipated drop
Are you f*cking ready?
Roses are red, violets are blue
EDM sucks, and so do you, bitch

EDM sucks
And so do you, bitch
