

# Happy

Showtek

Lately, everyone around me feels so fake  
Good thing that they all will disappear, yeah  
I do it better lonely anyway  
I kept my broken heart for years

Every time I fuck it up, I tell me it's the last time  
But I know that I will do it all again

I'm so happy, I could cry  
Think I have a piece of heaven  
It is raining all the time  
Oh, I love my, love my, love my sweet depression  
I'm so happy

I spent my last money on sugar pills  
Life has never felt so great  
I oversleep, forget to pay my bills  
I got no tears behind my shades

Every time I fuck it up, I tell me it's the last time  
But I know that I will do it all again

I'm so happy, I could cry  
Think I have a piece of heaven  
It is raining all the time  
Oh, I love my, love my, love my sweet depression  
I'm so happy, I could cry  
Every second leaves me breathless  
Play the sad song, the lonely one  
Oh, I love my, love my, love my sweet depression
