

# Live In A Bubble

Showtek

Your body has a way to read my mind  
Every time we kill the lights  
But then you leave me here at the border line  
Underneath this blood red sky

Don't wanna fall in love  
Only if you fall in love  
My heart is locked, my heart is locked  
I don't wanna make it stop  
Careful when you open up  
Pandora's box

This love is a bombshell ready to drop  
We live in a bubble ready to pop  
Oh, we could be heaven, we could be hell  
Are we gonna blow it up, blow it up, blow it up?

This love is a bombshell ready to drop  
We live in a bubble ready to pop  
Oh, we could be heaven, we could be hell  
Are we gonna blow it up, blow it up, blow it up?

This love is a bombshell ready to drop

Got your hand in mine and it's paradise  
Should I dare to shake the ground? (Shake the ground)  
Can we make it safe to the other side  
Oh, I'm crucified on your mouth

I don't wanna fall in love  
Only if you fall in love  
My heart is locked, my heart is locked  
I don't wanna make it stop  
Careful when you open up  
Pandora's box

This love is a bombshell ready to drop  
We live in a bubble ready to pop  
Oh, we could be heaven, we could be hell  
Are we gonna blow it up, blow it up, blow it up?

This love is a bombshell ready to drop  
We live in a bubble ready to pop  
Oh, we could be heaven, we could be hell  
Are we gonna blow it up, blow it up, blow it up?

This love is a bombshell  
Are we gonna blow it up?  
This love is a bombshell  
Are, are we gonna blow it up?  
This love is a bombshell

This love is a bombshell ready to drop  
We live in a bubble ready to pop  
Oh, we could be heaven, we could be hell  
Are we gonna blow it up, blow it up, blow it up?
