Mirror Mirror

Showtek

White lines on the glass
Blue eyes been watching hard
Falling back a little bit apart
Distracted by another shooting star

Wait for me, I'm not too far behind
Come for me, I'm not too far behind
Mirror, mirror, shining brightly on the wall
Mirror, mirror, who's the baddest of them all?

Mirror, mirror
Mirror, mirror, who is the baddest of them all?

Mirror, mirror, who is the baddest of them all?
Waiting in the spaces in-between
Rays of light keep coming after me
I'm catching fire with every breath I breathe
These colors never looked so good to me

Wait for me, I'm not too far behind
Come for me, I'm not too far behind

Mirror, mirror
Mirror, mirror
Mirror, mirror
Mirror, mirror
Mirror, mirror
Mirror, mirror
Mirror, mirror
Mirror, mirror
Mirror, mirror
Mirror, mirror

Mirror, mirror, who's the baddest of them all?

Mirror, mirror
Who's the baddest of them all?
