

One Life

Showtek

Don't be afraid to dream
And make them reality
Remember what you were told
Don't wait until you're old
The story goes
We're not made to see
What's beyond
Our eternity
'Cause we got only one life to live
And it's right by your fingertips
Yeah, we got only one life to live
So live it your way

With everything that it brings
There's always a song to sing
For every place that we go
There's new tales that will be told
The story goes
We're not made to see
What's beyond
Our eternity
'Cause we got only one life to live
And it's right by your fingertips
Yeah, we got only one life to live
So live it your way
Ooooh
Ooooh
So live it your way
