

Own The Night

Showtek

Anger, aggression, the fury of all
Release the pressure, rise or fall
Don't try to be the hero
Don't try to win the race
Don't blame us for the music
We'll end up face to face

Anger, aggression
The only thing we know
Unleash the rebel, never let it go
The battle is over, you've thrown the fight
Put your fingers up, 'cause we own the night

We own the night

Anger, aggression, the fury of all
Release the pressure, rise or fall
Don't try to be the hero
Don't try to win the race
Don't blame us for the music
We'll end up face to face
