Someone Like Me

Showtek

If you want this, oh
Say you wanna find her, hey
Put her all in designer, no
Say you looking for a diamond
How you gonna find her
Looking in a room full of stones?
Yeah, it's tough sometimes
I'll take her off your mind
I'm litty lit, I'm feeling it
It's gonna be a long, long night

Say you wanna love someone like me
Say you gonna work hard for this body
Say you wanna love someone like me
Gonna have to work if you want this
So you know
And I won't lie
Show me all that you know
And dim the lights

Say you want someone like me
Say you want someone
Say you want someone like me
Say you want someone
Say you want someone like me
Say you want someone
Say you want someone like me
Say you want someone
Say you want someone like me

Someone like me to hold you down
Turn this ship around
To ride that wave night and day
Say your ready for it now
You been messing with the wrong crowd
Way too many drinks up in the penthouse
I'm talking shit, I'm litty lit
It's gonna be a long long night

(Mmh, it's gonna be a long, long night)

Say you wanna love someone like me
Say you gonna work hard for this body
Say you wanna love someone like me
Gonna have to work if you want this
So you know
And I won't lie
Show me all that you know
And dim the lights

Say you want someone like me
Say you want someone
Say you want someone like me
Say you want someone
Say you want someone like me
Say you want someone
Say you want someone like me

Say you want someone
Say you want someone like me

Say you want someone like me, oh-oh

Say you wanna love someone like me
Say you gonna work hard for this body
Say you wanna love someone like me
Gonna have to work if you want this
So you know
And I won't lie
Show me all that you know
And dim the lights

Say you want someone like me
Say you want someone
Say you want someone like me
Say you want someone
Say you want someone like me
Say you want someone
Say you want someone like me
