Feels like ecstasy

Feels like...

Feels like...

Feels like ecstasy when you're next to me

Give me my heart to you I always will

You're gasoline, there's a fire in me

Take me higher with your love, don't let me go

Feels like ecstasy when you're next to me

Feels like ecstasy when you're next to me

Give me my heart to you I always will

You're gasoline, there's a fire in me

Take me higher with your love, don't let me go
