

I want to pick you up from the darkest times
Like the sun that shines on those it choose
Don't you mind if these days has gone on too long?
End it now before you break all your dead words

End it now before you break all your dead words
I won't lament or cry

Take me from the ground
From the ground, from the ground
I feel your skin around
Skin around

Want to pick you up from the darkest times
Like the sun that shines on those it choose
Want to pick you up from the darkest times
Even just a smile on those it choose

When I feel down and out
And there is no place left to hide
I know I can count on you to bring all my sorrows to light
And your kindness is peaceful as everything
Never mind, I want it, never mind, I want it

I want to pick you up from the darkest times
Like the sun that shines on those it choose
I want to pick you up from the darkest times
Even just one little smile can set me free

Oh, never mind, never mind
Just taking it away from here
Maybe you're nothing or maybe your wasting your time
