

Locals

Shrezzers

Awake at first light
My bag is packed, I'm ready to act
A little bit uptight
I'm carrying the weight, still carrying the weight
All things will come right
No turning back, I'm over the fence
A stroke of insight
I know where it takes, won't accept any fakes

You don't have to worry
What comes around, just goes around
Black roads are burning in reddish sunset
You just keep it steady
I'm not that far, less than a mile away
The wheels are spinning, leaving a trace

Remind me, remind me
Those beautiful Sundays
I can't live without this
Let's get together again
Remind me, remind me
That I am not alone
I can't live without this
The place that we call home

Future's so bright
It's built on sand like a fair-weather friend
So take just one bite
I carrying the weight, still carrying the weight
Turn diamond into graphite
When things go bad, you might need a hand
I finally arrive
Made it home safe, I smile through chafe

You don't have to worry
What comes around, just goes around
Black roads are burning in reddish sunset
You just keep it steady
I'm not that far, less than a mile away
The wheels are spinning, leaving a trace

Whatchu waiting for? Here we go
This night will last forever
Everyone repeat, hit the floor
Let's make it even better
Whatchu waiting for? Here we go
This night will last forever
Everyone repeat, hit the floor
Let's make it even better

Remind me, remind me
Those beautiful Sundays
I can't live without this
Let's get together again
Remind me, remind me
That I am not alone
I can't live without this

The place that we call home
Remind me, remind me
I can't live without this
Remind me, remind me
I can't live without this
