

Baby Lion

Shriekback

I like the glue-share widow (hose him down)
And Ah! that Shakespeare rhythm (10 beats wide)
Great how they bite the pillow (clean and brown)
All you mad old ladies (come inside)
Those gutta percha babies (rob you blind)
The sight of Tranquil Vermin (strong and wise)
Run with the bumcrack rebels (perfect crime)
Those analeptic heroes (canonise)

Those baby lions gonna rip you up - they can see right through you
Those baby lions jump 6 feet up - they wanna see what you do
Those baby lions

What about the douche-bag killings? (still unsolved)
All you disturbed young women (have no fear)
He do the goose-step waddle (so involved)
It was the lies you told him (brought him here)
And Oh! the good Red Herring (fish or fowl?)
Great how it holds it's value (bright and clean)
Support your local watchman (wreck that owl)
All of you leather priests (know what I mean)

Those baby lions gonna rip you up - they can see right through you
Those baby lions jump 6 feet up - they wanna see what you do
Those baby lions gonna rip you up - they can see right through you
Those baby lions jump 6 feet up - they wanna see what you do
Those baby lions

I like the glue-share widow (hose him down)

Those Gutta percha babies (rob you blind)
And Ah! The douche-bag killers (strong and wise)
The sight of tranquil vermin (perfect crime)
