

## Invisible Rays

Shriekback

I had a dream I walked the desert  
I saw a virgin and a lion  
They took me to the holy mountain  
And showed to me all of these signs  
I saw the fire upon the water  
I saw the blight upon the land  
I walked ten thousand miles to tell you  
The things I saw are now at hand

Jihad, invisible rays  
Killing boxes, cold fire  
Number war, the woman of gold  
Hard shadow, broken light

They took the god child from the cradle  
They built the tower on the shore  
They killed the king and took his young wife  
And gave her fortune to the whore  
You who hear me now bear witness  
These words come not a day too soon  
Your tears will fall like flowing rivers  
Upon the waters of the moon  
Jihad, invisible rays  
Killing boxes, cold fire  
Number war, the woman of gold  
Hard shadow, broken light

Jihad, invisible rays  
Killing boxes, cold fire  
Number war, the woman of gold  
Hard shadow, broken light
