I got my friend to teach me French  
So I could speak true to you  
Goodnight, sweet dreams, bonne nuit  
Funny that I tried

I don't need a seatbelt  
I don't the lights turned low  
Baby we can keep it  
Or baby we can take it off  
Wanna go everywhere with my got to be girl  
Though there's gonna be turbulence

When I'm with you  
I want you to be the remote  
Cause you're out of control  
You can get whatever you want from me cause  
You be the pilot  
I'll let you fly it  
All night long  
(All night long)

Look at our clothes  
They wrap around  
Each other like lovers do  
My jeans around your  
Polo polo polo neck  
Polo neck

I don't need a seatbelt  
I don't the lights turned low  
Baby we can keep it  
Or baby we can take it off  
Wanna go everywhere with my got to be girl  
Though there's gonna be turbulence

When I'm with you  
I want you to be the remote  
Cause you're out of control  
You can get whatever you want from me cause  
You be the pilot  
I'll let you fly it  
All night long  
(All night long)  
You be the pilot  
I'll let you fly it  
All night long  
(All night long)

When I'm with you

All night long

I'll let you fly it

The bird is flying low over the lake  
And you told me that you were mine  
And now I'm flying like the bird  
(Summer in December)  
Upside down  
Upside down
