

## religion (u can lay your hands on me)

Shura

It's human  
It's our Religion  
No preacher to teach us to love  
Two bodies  
One vision  
No one's watching over us

We've been talking on the telephone for hours at night  
Whilst I've been thinking about kissing you  
I want to consecrate your body, turn the water to wine  
I know you're thinking about kissing too

Oh girl, don't stop, please  
You can lay your hands on me  
Oh girl, don't stop, please  
You can lay your hands on me  
Oh girl  
You can lay your hands on me

It could be LA  
It could be Heaven  
If you're an Angel, can I be your God?  
You in all your glory  
It's not confession  
Baby don't apologize

We've been talking on the telephone for hours at night  
Whilst I've been thinking about kissing you  
I want to consecrate your body, turn the water to wine  
I know you're thinking about kissing too

Oh girl, don't stop, please  
You can lay your hands on me  
Oh girl, don't stop, please  
You can lay your hands on me  
Oh girl  
You can lay your hands on me  
You can lay your hands on me

We've been talking on the telephone for hours at night  
Whilst I've been thinking about kissing you  
I want to consecrate your body, turn the water to wine  
I know you're thinking about kissing too

Oh girl, don't stop, please  
You can lay your hands on me  
Oh girl, don't stop, please  
You can lay your hands on me  
Oh girl  
You can lay your hands on me  
You can lay your hands on me
