

# Renegades

SHVPES

Killing time til our final lesson's learnt  
Nobody's gunna listen when you're dead and gone  
Sick and tired of the same solution  
White flag led revolution  
Seems impossible  
We are renegades  
Taking back our history  
We are renegades  
Running from the gun  
Running from the gun  
(This ain't - repeat) The time or place for a white flag revolution  
We're falling victim to the same conclusions  
Sick to death of playing safe  
Wanted dead, alive, as a renegade  
Raising a fist, we will stop and resist and refuse  
Til they're breaking out the shackles or tying our noose  
Forks in the sky, we dig out the corrupt  
Stand out ground, sick of living face down with our fingers up  
So sick of running for our lives  
To count our dead once they're gone  
We're staying out til it all dies  
We're not coming home  
So we singWe are renegades  
Taking back our history  
We are renegades  
Running from the gun  
Running from the gun  
We are renegades  
Taking back our history  
We are renegades  
Running from the gun  
Running from the gun  
'Cause we're sick to death of playing safe  
Wanted dead, alive, as a renegade  
Raising a fist, we will stop and resist and refuse  
Til they're breaking out the shackles or tying our noose  
Put your fingers up  
Put your fingers up  
Put your fingers up  
Sick of living face down put your fingers up  
Put your fingers up  
Put your fingers up  
So sick of running for our lives  
To count our dead once they're gone  
We're staying out til it all dies  
We're not coming home  
So we singWe are renegades  
Taking back our history  
We are renegades  
Running from the gun  
Running from the gun  
We are renegades  
Taking back our history  
We are renegades  
Running from the gun  
Running from the gun
