

I Pray

Shwayze

I got my hands up, through the fire
Make my way with the flames getting higher
Baby I pray
You'll stay, you'll stay
And as it comes down, to the wire
Make my way with the flames getting higher
Baby I pray
You'll stay, you'll stay ay ay

Through the pain
Through the fame
Through the fire
Even through the shame
Am I the one you still desire
Little frame
With a heart like a lion
Baby made me fall in love
And she wasn't even tryin'
Do you give love space or are you pryin'
Dry ya eyes quit ya bloodclot cryin'
Type of love that'll make you never show your face again

I got my hands up, through the fire
Make my way with the flames getting higher
Baby I pray
You'll stay, you'll stay
And as it comes down, to the wire
Make my way with the flames getting higher
Baby I pray
You'll stay, you'll stay ay ay

I see my name in lights
But sometimes it gets so blinding
I been in the dark and in the mud, but it's behind me
When I talk to God in my mind, he reminds me
If we make it through this night
I'll be alright with you beside me
Drivin' through the mountains
I don't know where I be goin'
It's that time of month when I'm on the mic
Cause I be flowin'
Every cowboy need a pistol by his side
You be my shotgun
And I'll be your ride or die

I got my hands up, through the fire
Make my way with the flames getting higher
Baby I pray
You'll stay, you'll stay
And as it comes down, to the wire
Make my way with the flames getting higher
Baby I pray
You'll stay, you'll stay ay ay
