Shwayze

Feel good

Type of girl that make you wanna do better (Better)  
Type of girl you find out in Coachella (Coachella)  
You're a star in my eyes girl, let me be your Nutella (Nutella)  
Look, look, Shway ain't no new fella (yeah)  
I used to date two chicks, look like Cruella (Yeah)  
Yeah, but, but now I'm more grounded  
Looking for my purpose and my son, I found it  
Hot like the summer but cold like the winter (Winter)  
She always finish first 'cause she's no beginner (Huh?)  
It's only relative when you talkin' 'bout a sinner  
I send her messages all red like a ginger (Shh)  
Marijuana life, more plain and more simple  
But this fairy tale wasn't written with no pencil (Nope)  
Baby, it's your fate to be great  
You're a star, look how you light up the place

Let me tell you 'bout a girl who lights it up  
When she walks into a room, she's like the sun  
If you look into her eyes, don't fall in love  
She'll just leave you in her stardust

Ooh, ooh, ooh, ooh  
Ooh  
She'll just leave you in her stardust (Oh yeah)  
Ooh, ooh, ooh  
Ooh (She'll just)  
She'll just leave you in her stardust

Baby girl, you're gorgeous (Gorgeous)  
And your booty is literally out of orbit (Orbit)  
Think I need some sugar-free Orbit (Why?)  
So when I talk, you don't ignore me (Yeah)  
If I make you a hit, would it make you forget?  
Or distribute shit, would you dance to it?  
If I could take your time, if I could make you mine  
Make me sublime on my mind (What you think about that?)  
How'd you get so high? (What you think about that?)  
'Cause you're a star, baby, that's exactly what you are

Let me tell you 'bout a girl who lights it up  
When she walks into a room, she's like the sun  
If you look into her eyes, don't fall in love  
She'll just leave you in her stardust

Ooh, ooh, ooh, ooh  
Ooh  
She'll just leave you in her stardust (Oh yeah)  
Ooh, ooh, ooh  
Ooh (She'll just)  
She'll just leave you in her stardust

Let me tell you 'bout a girl who lights it up (Okay)  
When she walks into a room, she's like the sun (Wow)  
If you look into her eyes, don't fall in love (Why not?)  
She'll just leave you in her stardust

Ooh, ooh, ooh, ooh  
Ooh  
She'll just leave you in her stardust (Yeah)  
Ooh, ooh, ooh, ooh  
Ooh  
She'll just leave you in her stardust

She'll just leave you in her stardust (Hey, hey, you a star, baby)  
(I'm so dark, I just wanna be next to you so you can brighten me up)  
She'll just leave you in her stardust (Let's get it in)
