

# Tequila La La La La

Shwayze

Salt and lime  
Every time  
Mix 'em up and I'm mixed up in feelings  
Ain't the beer  
Ain't the wine  
Reposado and I'm back in that season  
Of holding you close  
Like waves on the coast  
Tell me, where do they go  
When they're gone

Reminiscing 'bout shots at the hotel bar  
In the Mexican moon  
We were sipping from the bottle  
Saying "I love you"s  
We were kissing all the way to the room  
When I woke up in the morning  
You were gone  
Why'd you leave so soon

Tequila la la la la  
It makes me think of you and wasted love  
Tequila la la la la  
I only think of you and wasted love  
And nights  
When we were closer  
I run it back to us before we were over  
Tequila la la la la  
It makes me think of you and wasted love

La la la la

I rather see your face than FaceTime  
Pull up in the place it's a great vibe  
Took a couple shots to the face  
I don't need a chase  
Less we headed to the bank  
Are you love or hate?  
Love is war, what's your rank?  
Man I need a drank  
Need a smoke, need to thank  
You know, fill up my tank  
'Cause when reality set in I need to get away  
Need a break  
PDA when the clouds are gray  
Tequila sunshine when it rains

Reminiscing 'bout shots at the hotel bar  
In the Mexican moon  
We were sipping from the bottle  
Saying "I love you"s  
We were kissing all the way to the room  
When I woke up in the morning

Tequila la la la la

Tequila la la la la

La la la la  
You and wasted love
