

All Night

Shy Carter

Something special about you, can I know your name?
Baby, uh
Got a feelin' you're the only reason why I came
I wanna be your air, your water
Basically I wanna be your everything, yeah, uh
I am the one, I am the one
I'm in your arms to stay (Woo!)

We can get lost in us, catch some feeling
Shut the world out and open your mind (Your mind)
We can give making love a new meaning
All night (Woo!)

(Ooh, yeah)

Ayy
I wanna touch your body in a serious way
Baby, baby
Go somewhere alone and get a serious taste, uh
I don't want nothin'
I don't want nothin' to get in my way, no
I am the one, I am the one
I'm in your arms to stay (Woo!)

We can get lost in us, catch some feeling
Shut the world out and open your mind
We can give making love a new meaning
All night
We can get drunk without even drinking
Stay the night here, tomorrow all night
Girl, it's your song that I'm gon' be singing (Singing)
All night

It's for the sexy
Sexy people all night, yeah

We can get lost in us, catch some feeling (Yeah)
Shut the world out and open your mind (Open your mind, baby girl)
We can give making love a new meaning
All night (Woo!)
We can get drunk without even drinking
Stay the night here, tomorrow all night
Girl, it's your song that I'm gon' be singing
All night

All night
