

# Hard

Shy Carter

I could call you a taxi, we could just call it quits  
We could just throw our hands in the air  
Act like we don't care, say it is what it is  
Say, I can't forgive you and I never will  
Or we could let another sun come up on our love  
And see what time might heal

It's gonna be hard on my heart  
It's gonna be hard on my pride  
It's gonna be hard on my days  
Even harder on my nights  
It's gonna be hard to let you go  
Hard not having you around  
It's gonna be harder, harder than we know  
If we take the easy way out

Goodbye's on the table, just one word away  
Devil says it'll set us free, but the truth is, baby  
It's a hell of a price to pay  
Just give me one more hour  
Then maybe just one more  
Come on, baby, what you say we lose this battle so we can win t  
his war

'Cause it's gonna be hard on my heart  
It's gonna be hard on my pride  
It's gonna be hard on my days  
Even harder on my nights  
It's gonna be hard to let you go  
Hard not having you around  
It's gonna be harder, harder than we know  
If we take the easy way out  
If we take the easy way out, girl, please

It's gonna be hard on my heart  
It's gonna be hard on my pride  
So can we please try a little bit harder  
While we're still here tonight (While we're still here tonight)  
It's gonna be hard to let you go (Hard to let you go)  
Hard not having you around  
It's gonna be harder, harder than we know  
If we take the easy way out  
If we take the easy way out, girl  
If we take the easy way out
