

Under Attack

Shy Girls

La la la la la la, na na
La la la la la la la, na na
La la la la la la la, na na
La la la la la la la, na na

With my lonely lights at night
Away from no one at all
It's a feeling I got to know
I don't know right now
You will burn down all the bridges
If it had any steam
And it's a big ten for if you're asking for
Wanna let me be

I'm in the zone, Can you feel it?
Right now, right now
I'm in the zone, Can you feel it?
Right now, Right now

Cause love at first sight, Is better than love from last night
Yeah, love at first sight, Is better than love from last night
Love at first sight, Is better than love from last night
Some night, Some night
That just ain't right

'Cause your lips' under attack
Girl, you got it bad, under attack
'Cause your lips' under attack
Girl, you got it bad, under attack
Under attack, girl
Under attack attack attack
You got it bad, girl
You got it bad bad bad
Under attack, girl
Under attack attack attack
You got it bad, girl
You got it bad bad bad
Under attack

If myself's resigned
I don't know where I'd be
And if it all comes to an end
It might as well be me
So we'll burn down all the bridges
If it had any steam
And it's a big ten for if you're asking for
Wanna let me be
'Cause we are going nowhere
I got it right here

'Cause your lips' under attack
Girl, you got it bad, under attack
'Cause your lips' under attack
Girl, you got it bad, under attack
Cause your lips' under attack
Girl, you got it bad, under attack
Cause your lips' under attack

Girl, you got it bad, under attack

Cause love at first sight, Is better than love from last night
Yeah, love at first sight, Is better than love from last night
This love at first sight, Is better than love from last night
Some night, Some night
That just ain't right

'Cause your lips are under attack, attack, attack
You got it bad girl, You got it bad bad bad
'Cause your lips are under attack, attack, attack
You got it bad girl, You got it bad bad bad

(Cause your lips are under attack, attack, attack)
'Cause love at first sight, Is better than love from last night
(You got it bad girl, You got it bad bad bad)
Yeah, love at first sight, Is better than love from last night
(Cause your lips are under attack, attack, attack)
This love at first sight, Is better than love from last night
(You got it bad girl, You got it bad bad bad)
Your love at first sight, Is better than love from last night

No more clubs, no more parties
No more drugs, and no more shame
