

Never needed you
Never needed all these pieces of my heart, heart
Never needed you
Never needed Mister Useless from the start, ah-ah

So don't waste your time or your energy
I'm the best I've ever been and I'll ever be
If I cross your mind, just don't think of me
Taking care of anything that I need, baby (Lovin' insane)
So don't waste your time or your energy
I'm the best I've ever been and I'll ever be (Lovin' insane)
If I cross your mind, just don't think of me (Lovin' insane)
Taking care of anything that I need, baby (Lovin', feel it now)

Never needed you
Never needed all these pieces of my heart, heart
Never needed you
Never needed Mister Useless from the start, ah-ah
Never needed you
Never needed, just a healing from my love, ah-ah
Never needed you
Never needed, promise me you're goin' far, ah-ah

So don't waste your time or your energy
I'm the best I've ever been and I'll ever be
If I cross your mind, just don't think of me
Taking care of anything that I need, baby

Never needed you
Never needed all these pieces of my heart, heart
Never needed you
Never needed, promise me you're gonna call, ah-ah
