

Poison

Shygirl

(I'll bring you back)
(I'll bring you back)

Every time you part
All the times you run away
Leaving in the space
Nothing but a twisted melody
It's to meet back at the start
And begin the game we play
I can never get it wrong
I know you're falling for me

No remedy, no cure for me
Call me poison
Pulse rate quickens as I close in
Your heart will stop for me
But we start again
Workin' to the beat of this broken rhythm

Closer you get to flatline
Bring you back
I'll bring you back
Whenever you see the bright light
I'll bring you back
I'll bring you back
Closer you get to flatline
Bring you back
I'll bring you back
Whenever you see the bright light
I'll bring you back
I'll bring you back

Always on your mind
Go back and repeat
Never moving far from the point
That you met with me
I know this must be hard
But it could be so easy
Just give up, open wide
And take in all of me

Closer you get to flatline
Bring you back
I'll bring you back
Whenever you see the bright light
I'll bring you back
I'll bring you back
Closer you get to flatline
Bring you back
I'll bring you back
Whenever you see the bright light
I'll bring you back
I'll bring you back

Poison in your veins
Poison in your veins
The closer to the pain
