

# SIREN

Shygirl

Shy

She only wants a good time  
Nice things, long nights  
Riding in your fast car, past all the city lights

You know she's not good for you  
You just ain't got the speed  
You're just tryna keep it cool  
And she only brings the heat  
Oh, you know she's a wild one  
That you're setting free  
Yeah, a siren on the rocks  
Calling you into the deep  
Yeah, you know

She only wants a good time  
Nice things, long nights  
Riding in your fast car, past all the city lights  
Riding in your fast car, past all the city lights

When you get the money  
You can have the power  
When you get the power  
Yeah, you get the girl  
When you get the money  
You can have the power  
When you get the power  
Yeah, you get the girl

When you get the money  
You can have the power  
When you get the power  
Yeah, you get the girl  
When you get the money  
You can have the power  
When you get the power

Get ready for a ride  
Can only get her for the night  
You can feel the time run faster when you see her fading out of sight  
You're not the one, but you know that's always half the fun  
Living only for a moment with the girl who does just what she wants  
Oh, you know she's a wild one  
That you're setting free  
Yeah, a siren on the rocks  
Calling you into the deep  
Yeah, you know  
Oh, you know

She only wants a good time  
Nice things, long nights  
Riding in your fast car, past all the city lights  
Riding in your fast car, past all the city lights
