Sia

You bring me to life  
And you shoot me out  
You keep me silence  
When I shoot you out  
You make me cry when you make me crumb  
You are the gap in my monologue

It all begins with one kiss  
Find out I take my other love  
Put me in cuffs  
Lock me up  
Find out I take my other love  
What's killing wrath  
Wanna give it out  
The secret of a love keeps screaming a ghost  
Don't lock me up  
Don't you wanna feel loved  
Find out I take my other love

When you left me out  
And I catch the sun  
You gave me a taste then you were the one  
But you're always leaving  
Again I'm alone  
This secret burns but I'm in prison

It all begins with one kiss  
Find out I take my other love  
Put me in cuffs  
Lock me up  
Find out I take my other love  
What's killing wrath  
Wanna give it out  
The secret of a love keeps screaming a ghost  
Don't lock me up  
Don't you wanna feel loved  
Find out I take my other love

Once seen  
A great effortless love  
Ooh those who have heard  
Under the covers  
The wild  
You break my heart  
I'm a criminal, and he's Paul

It all begins with one kiss  
Find out I take my other love  
Put me in cuffs  
Lock me up  
Find out I take my other love  
What's killing wrath  
Wanna give it out  
The secret of a love keeps screaming a ghost  
Don't lock me up  
Don't you wanna feel loved  
Find out I take my other love

It all begins with one kiss  
Find out I take my other love  
Put me in cuffs  
Lock me up  
Find out I take my other love  
What's killing wrath  
Wanna give it out  
The secret of a love keeps screaming a ghost  
Don't lock me up  
Don't you wanna feel loved  
Find out I take my other love
