

Magic

Sia

Now I don't wanna float to light
On a cloud of man-made ice
Told it to pass me by
Don't wanna to pass me by
Settle up now for the ride
Waiting for the moon to rise
Don't wanna to pass me by
Don't wanna to pass me by

But I've been waiting for a magic moment
But maybe there are magic moments
Could it be a magic moment now?
I've been waiting for a magic moment
But maybe there are magic moments
Baby it's a magic moment now

But darling it's a magical, magical life, life, life
Oh, honey, it's a magical, magical life, life, life
And baby it's a magical, magical life, life, life
When you come find a magical been to night light life
Magic in an everyday night
Magic in an everyday night
Magic in an ordinary life
Magic in an ordinary life
Magic in an everyday night
Magic in an everyday night
Magic in an ordinary life
Magic in an ordinary life

I could see the ring come down
But I know the seeds be found
I'm gon' watch 'em grow up now
I'm gon' watch 'em grow up now
And the flowers face I see
And the flowers faces me
I'm gon' watch me grow up now
I'm gon' watch me grow up now

But I've been waiting for a magic moment
But maybe there are magic moments
Could it be a magic moment now?
I've been waiting for a magic moment
But maybe there are magic moments
Baby it's a magic moment now

But darling it's a magical, magical life, life, life
Oh, honey, it's a magical, magical life, life, life
And baby it's a magical, magical life, life, life
When you can find a magical been to night light life
Magic in an everyday night
Magic in an everyday night
Magic in an ordinary life
Magic in an ordinary life
Magic in an everyday night
Magic in an everyday night
Magic in an ordinary life
Magic in an ordinary life
