

## The Corner

Sia

I am standing on the corner, I am watching traffic lights  
I am sinking into concrete, I am watching two girls fight  
I'm attempting to move forward but my legs are made of lead  
The words you planted on me just keep running through my head

Been pushing on the button that will make the traffic stop  
It's hard to be distracted when you know it's all you've got  
I barely [?] as I watch you cross the line  
It's hard to be affected when you're dead inside

You and I  
You and I

What will I do? I cannot move  
You are taking all that I knew  
Here I will stay, stuck in this place  
Trying to get over you  
(2x)

I live here on the corner, I am sucking in the fumes  
It's [?] to be my choices and I cannot be improved  
I'm all over the corner, all the pieces of my parts  
It's time to mend the pieces of my broken heart
