Brother

Siamese

Brother, we made a promise to stand up for each other
To get through all the dark times together
Where's the light cause I need it now, my brother
Brother, we made a promise to stand up for each other
To get through all the dark times together
Where's the light cause I need it now, my brother

It shouldn't have to be this way
After all, you're supposed to be my best friend
Do you regret taking what's mine
How could you think that it's all fine
So what's a man without his friends
A man [?] live from his own gains
You took advantage of my pain
How could you go and do me wrong, oh

Brother, we made a promise to stand up for each other
To get through all the dark times together
Where's the light cause I need it now, my brother
Brother, we made a promise to stand up for each other
To get through all the dark times together
Where's the light cause I need it now, my brother

Betray your [?] in differents shapes
Cause it hurts when I see how you could forget me
So there's a fence [?]
How could you go and do me wrong, oh
You can replay this pretend
Quit saying that we can, we can still be friends
I know your lover and your lies
How could you think that it's all fine

What's a man, what's a man without his friends
He's a man, he's a man without his worth
What's a man, what's a man without his friends
Oh my brother

Brother, we made a promise to stand up for each other
To get through all the dark times together
Where's the light cause I need it now, my brother
Brother, we made a promise to stand up for each other
To get through all the dark times together
Where's the light cause I need it now, my brother
