

## Brother

Siamese

Brother, we made a promise to stand up for each other  
To get through all the dark times together  
Where's the light cause I need it now, my brother  
Brother, we made a promise to stand up for each other  
To get through all the dark times together  
Where's the light cause I need it now, my brother

It shouldn't have to be this way  
After all, you're supposed to be my best friend  
Do you regret taking what's mine  
How could you think that it's all fine  
So what's a man without his friends  
A man [?] live from his own gains  
You took advantage of my pain  
How could you go and do me wrong, oh

Brother, we made a promise to stand up for each other  
To get through all the dark times together  
Where's the light cause I need it now, my brother  
Brother, we made a promise to stand up for each other  
To get through all the dark times together  
Where's the light cause I need it now, my brother

Betray your [?] in different shapes  
Cause it hurts when I see how you could forget me  
So there's a fence [?]  
How could you go and do me wrong, oh  
You can replay this pretend  
Quit saying that we can, we can still be friends  
I know your lover and your lies  
How could you think that it's all fine

What's a man, what's a man without his friends  
He's a man, he's a man without his worth  
What's a man, what's a man without his friends  
Oh my brother

Brother, we made a promise to stand up for each other  
To get through all the dark times together  
Where's the light cause I need it now, my brother  
Brother, we made a promise to stand up for each other  
To get through all the dark times together  
Where's the light cause I need it now, my brother
