

Deep End

Siamese

Sometimes I think, I'm going out of focus
I'm losing all control, I'm feeling hopeless
So beat me black and blue, like an ocean

Like an ocean

You can pull me in, you can pull me down
You can diagnose me as a failure
Pulling my skin when I'm on the ground
I'm not coming back for more

So follow me out, follow me down
Down to the deep end
'Cause I believe, I believe, I believe
I've lost my mind
So follow me out, follow me down
Down to the deep end
'Cause I believe, I believe, I believe
I'm lost inside, searching for the light

Sometimes I think I'm going round in circles
I'm losing grip of life, I can't help it
So beat me black and blue, like the ocean
Like the ocean

So follow me out, follow me down
Down to the deep end
'Cause I believe, I believe, I believe
I've lost my mind
So follow me out, follow me down
Down to the deep end
'Cause I believe, I believe, I believe
I'm lost inside, searching for the light

Diagnose me as a failure
I can feel it all down my spine
I'm all the way down at the bottom
How can I get up when I'm down at the deep end?

Make way, 'cause I'm about to lose control
I'm going to the deep end
I feel it now

So follow me out, follow me down
Down to the deep end
'Cause I believe, I believe, I believe
I've lost my mind
So follow me out, follow me down
Down to the deep end
'Cause I believe, I believe, I believe
I'm lost inside, searching for the light

I'm searching for light
So follow me down
Follow me down, down down
Down, down down
Down to the deep end
