

Firestarter

Siamese

Out of a low
I'm taken out of every thing that I've ever known
Head full of thoughts
Mental gossip got me mentally broke

'Cause I will give and take over the moon
Telling myself what I can't do
I could never trust I tell myself

I'd be kicking my head way too soon
Believing there are things I can't give you
And that you will regret

I'll start a fire on the sun
I'll tell you all that could go wrong
Yeah, it will go wrong again
My mind is always on the run
And I will keep the flames so strong
'Till I get it wrong again
I'm running out of breath
I'm running out of...

Down in a hole
For every breath I take I feel like I loose control

'Cause I've been kicking my head way too soon
Believing there are things that I can't give you
And that you will regret

I'll start a fire on the sun
I'll tell you all that could go wrong
Yeah, it will go wrong again
My mind is always on the run
And I will keep the flames so strong
'Till I get it wrong again
I'm running out of...
I'm running out of...

And while the illness flows
In sequences I'm told
Don't buy what they sell
Its not good for my health
A fire in the sun
And while the illness flows
In sequences I'm told
Don't buy what they sell
Its not good for my health...

I'll start a fire on the sun
I'll tell you all that could go wrong
Yeah, it will go wrong again
My mind is always on the run
And I will keep the flames so strong
'Till I get it wrong again
I'm running out of...
I'm running out of...
I'm running out of...

I'm running out of...
