One Night Thing

Siamese

Listen to the story
The story of one night
I never saw it coming
Dancing in the lights

Everybody knows her
But nobody would try
I will leave them dying
If I decide to try

I'm singing Ooohohooh

You opened up my mind
Yeah there's no doubt about it

Ooohohooh

I'd rather feel than regret
Can You feel me?

My heart is gonna drippin
My feet above the ground
Everybody's watching
Dancing in the lights

You don't know how I did it
But you really don't mind
As we leave them dying kissing in the night

We're singing Ooohohooh

You opened up my mind
Yeah there's no doubt about it

Ooohohooh

I'd rather feel than regret
Can you feel me?

It's not the first time that I want it
But the first time that I need it
It's not a one night thing, I know it
I would never think that of you

It's not the first time that I want it
But the first time that I need it
It's not a one night thing, I know it
I would never think that of you

I would never think that of you

Listen to the story
The lover of my life
I never saw it coming
We're dancing in the lights
I don't know how you did it
And I really don't mind

As we leave them dying
Kissing in the night

We're singing Ooohohooh

You opened up my mind
Yeah there's no doubt about it

Ooohohooh

I'd rather feel than regret
Can you feel me?

It's not the first time that I want it
But the first time that I need it
It's not a one night thing, I know it
I would never think that of you

It's not the first time that I want it
But the first time that I need it
It's not a one night thing, I know it
I would never think that of you

It's not a one night thing
I would never think that of you

It's not a one night thing
I would never think that of you
