

Through My Head

Siamese

As time flows we're running out slowly
I feel the change on me
Like a river
Together but lonely
We're not what we've been

What if we could rewind
The end of our line
I'd let you in
Beneath my skin

All the things that we have done and said
Running through my head
Running through my head
All the things we should have done instead
Running through my head
Through my head
If we could turn back time
For it started to fly
Maybe we could make amends
All the things that we have done and said
Runnin' through my head
Through my head
Through my head

With years gone - I feel it upon me
Wearing me slowly
When tears come and take a toll on me
And stretching me thin

We circle the sun - but still going nowhere
If you are the one, is there something to share?
Do you care if I'm here?
Cause I feel a change in the air

All the things that we have done and said
Running through my head
Running through my head
All the things we should have done instead
Running through my head
Through my head
If we could turn back time
For it started to fly
Maybe we could make amends
All the things that we have done and said
Runnin' through my head
Through my head

Self-medicate, there's no remedy
Seconds turn into eternity
Foundations collapse
Staring to the dark
A bullet running through my head

Face the fact
Feel the change in me
House of glass

In a million pieces
Face the fact
Feel the change in me
Cause it's burying me deep

All the things that we have done and said
Running through my head
Running through my head
All the things we should have done instead
Running through my head
Through my head
If we could turn back time
For it started to fly
Maybe we could make amends
All the things that we have done and said
Runnin' through my head
Through my head
Through my head

Face the fact
Feel the change in me
House of glass
In a million pieces
