

Unified

Siamese

I've travelled in different places shaken hands with a lot of faces
a citizen a
Refugee A hated man who is inbetween I go wherever These songs
take me. I've
Learned that the roads they made me A citizen a refugee And I've
been traveling
For miles to see

Unified
We'll never be
We won't align
We don't believe in what they speak
Different and will never change
Make it so we get the blame
Oh unified
That's what we'll never be

I remember 40 sleepless hours The Waves, and patrolling towers
The world is a
Refugee
Cause the world doesn't want to see
We go wherever they will take us
Keep telling us that these roads they made us
So I follow this path I lead
Cause that's what I wanna be

This is who we are
