

Utopia

Siamese

Save your breath
We were caught up in euphoria
Utopia
So save your breath
We were caught up in euphoria
Utopia

You call and swear you're sober
'Cause you'd say anything so I let you come on over
And when we needed closure
You set the place on fire and left us even colder

Just how many times can you die for me?
You can't really see all the irony?
You ripped and stepped on all that we were

So save your breath
We were caught up in euphoria
Utopia
So save your breath
We were caught up in euphoria
Utopia
Utopia

Now words won't pull me closer
'Cause you'll say anything when you lose all composure
Can we do this full disclosure?
This thing we had was lost even before it was over

Just how many times can you die for me?
You can't really see all the irony?
You ripped and stepped on all that we were

So save your breath
We were caught up in euphoria
Utopia
So save your breath
We were caught up in euphoria
Utopia

So save your breath
We were caught up in euphoria
Utopia

So save your breath
We were caught up in euphoria
Utopia

Utopia
We were caught up in euphoria
Utopia
