

## Just Look Around

### Sick of It All

The question they keep asking me  
How can one so young be so bitter and angry  
Well, the answer is plain to see  
Maybe if they weren't so blind they'd see what I see  
I see the homeless livin' out on the street  
On every corner they're asking for money  
I try to help them whenever I can  
But sometimes I can't afford to help myself  
I see diseases and modern plagues of our times  
The greed of our leaders has made them blind  
To our problems  
They spend millions overseas,  
People right here are fightin' wars everyday

I see the whites that hate the blacks  
Blacks against the jews, race against religion  
And there all too blind to see

When we fight each other it puts all of them at ease  
It keeps us so busy, so they can do what they please  
Election time comes and they're out for votes  
That's when you see and hear from them the most  
This is what they're calling a democracy  
That's just another word for hypocrisy  
We keep fallin' for the bait  
When we realize, it's always too late

I see the whites that hate the blacks  
Blacks that hate the jews, brother against brother  
And they're all too blind to see

As the rich get richer, the poor goin' hungry  
I've seen the toll it takes on the workingman's family  
Education system that's obsolete  
Can't hold a kid's interest or keep 'em off the street  
See a father's fear, hear a mother's cry  
What kind of a nation lets their children die  
Government's corrupt and full of red tape  
Then you're gonna ask me why I hate

Why don't you open up your eyes so you can see  
Open up your ears so you can hear  
Take a look around and you will find  
Take a look around and you will find out why
