

# Wasting Time

Sick of Sarah

So you're wasting all your time  
You do it all the time and it hurts so bad  
And when the morning comes and you gotta sit back  
Show them what you've done

It takes a bit of a strong kind to get that far  
It takes a lot of luck and a lot of scars

This is the story we've made it  
It's hard to contain it  
But I feel like I'm working hard  
I'll pleasantly shout it  
I can't live without it  
You know that we're working hard

So we're wasting all your time  
You wanna press rewind  
I really wish you had that chance to  
And when the morning comes and you gotta sit back  
Show them what you've done  
Can you handle that  
So they're cropping up our lives  
We do it all the time and it hurts so good  
It throws us to the floor (makes me wanna it more)  
It makes me want it more  
Makes me want it more

It takes a bit of a strong kind to get that far  
It takes a lot of luck and a lot of scars

This is the story we've made it  
It's hard to explain it  
But I feel like we're working hard  
I'll pleasantly shout it  
I can't live without it  
We're working hard (it takes a lot to make you move)

And it takes a lot to make you move  
So it does  
And it takes a lot to make you move  
Oh it does

This is the story we've made it  
It's hard to contain it  
But I feel like we're working hard  
I'll pleasantly shout it  
I can't live without it  
You know that we're working hard

This is the story we've made it  
It's hard to explain it  
But I feel like I'm working hard  
I'll pleasantly shout it  
I can't live without it  
You know that we're working hard
